Protessional Cards.

THE NORTHERN PACIFIC BAILROAD.

Sinancial.

the Northern Pacific Railroad Company, announce the Issue of the new Seven-Thirty Gold Loan of that Com-PADY, WHICH THEY OFFER AT PAR AND INTER-

EST IN CURRENCY.

In presenting a loan of this character there are certain considerations which seem to commend it to the special favor of capitalists, and of all who desire a safe, THE NORTHERN PACIFIC RAILROAD is now building westward from Lake Superior, Enough money

has been paid in by the stockholders to construct and equip the first division of the road-from Lake Superior across Minnesota to the Rei River of the North-23 miles. The money for this branch-six millions of dollars-has been paid in, and the work is being rapidly pushed to completion.
At the same time arrangements have been completed for beginning the road at the Western terminus on the

Puget Sound and on the Pacific Ocean. This work will commence in the Spring-and in a little time the road will be in the process of building at each end.

The character of this bond—its terms, obligations, and security—the care taken to guard in the remotest degree the interest of every bondholder, must com-mend it in an eminent degree to the public. All the experience gained by this house from more than thirty years' familiarity in banking business with every variety of securities, has been devoted to the perfecting of

this bond, and making it as far as possible a PERFECT SECURITY.

miles in extent, together with the rolling stock, buildings, and all other equipments.

In the second place, it is a first and only mortgage UPON & LAND GRANT OF MORE TEAN FIFTY MIL LIONS OF ACRES. For every mile of completed road the Government gives the Company over TWENTY-TWO THOUSAND ACRES OF LAND. This land to

breces agricultural, timbered, and mineral lands. It will thus be seen that the franchise of the road and its vast endowment extends over a broad, fertile beit of land, from Lake Superior and Wisconsin, through the richest portions of Minnesota, Dakoto, Montana, Idaho. Oregon, and Washington, to Puget Sound and

the Pacific Ocean.

At the outset of this enterprise the Northern Pacific Railroad rurchased and partially consolidated with their line the St. Paul and Pacific Railroad, embracin: THREE HUNDRED MILES OF COMPLETED ROAD IN MINNESOTA, on which there is now a growing and prosperous business. This combination removes what might, at the Eastern terminus, otherwise be regarded as the rivalry of conflicting interests.

The extent an I value of the endowment in lands be-stowed upon the Northern Pacific Railroad by the Gov-ernment cannot be too highly valued. This grant alone has been estimated to be larger in area than all New England with Maryland combined, or as large as Obio and Indians.

The history of the Illinois Central Railroad, whose

land grant was one of the earliest experiments in the matter of Government endowment, shows the vast and held and administered in the Interest of bondholders. The State of Illinois gave to this corporation some two million and a half acres. At this time, the revenues from these lands amount to some twentytour millions of dollars, and there is every reason to sup-pose that they will reach thirty millions of dollars. At the time when this grant was bestowed upon the lili-nois Central, the lands had no greater relative value han the lands in the possession of the Northern Pacific

before accepting the agency of the read, day cooke & Co. nad the lands embraced in this grant carefully examined by competent and impartial agents. The reports of these gentlemen satisfied the fiscal agents of the GREAT VALUE OF THESE LANDS, their tertility and wealth, their timber and mineral importance, their mildness of temperature, their perfect adaptablity to every want of a large agricultural and industrial consistion.

to as, which the purposes of continence and for all the purposes of continence, at home and abrack, be worth hundreds of millions of collars. "No person, remarked an eminent senator, can study the topogiaphy of the country, can bring to bear his knowledge of the climatic influences, without knowing that these plains are ferfile; that they are clothed with grass and timber, worth usful millions of money; that it is a vast and valuable grass-proportion and grain-grawing region—a large proportion of it covered with forests, the like of which cannot be found elsewhere on this continent, from which the great commercial powers of the world are now obtaining the timber out of which they now construct their merchant fleets." In this same debate the land grant was spoken of as "agrend empire" by one Sectior, as "an empire in its grant empire with a bett, remarked still another sentor, "one hundred and twenty inflex wide and treaching two thousand miles in extent, sufficient of treaching two thousand miles in extent, sufficient of lates." an, attention is earnestly requested to the security and profit of these bonds:
They are free from United States tax, and are issued

the following denominations: Coupons, \$100, \$500, \$5,000, and and \$1,000. Registered, \$100, \$500 \$1,000, \$5,000, and \$10,000.

B th Principal and Interest are payable in American Gold coin, at the Office of Jay Cooke & Co., New York city—the Principal at the ent of thirty years and the Interest (at the Enterest (at the En

besides the railroad itself and all its equipments and franchises.

THESE BONDS WILL BE AT ALL TIMES RECKIVABLE, AT LIO, IN PAYMENT FOR THE COMPANYS LANDS, AT THEIR LOWEST CASH PRICE.

THE REGISTERED SONDS CAN BE EXCHANGED AT ANY TIME FOR COUPONS, THE COUPONS FOR REGISTERED; and both those for others, payable, pineinal and interest, at any of the principal financial cen res of European the coun of the various European countries.

In recapitulating the advantages of this loan, it is well to remember—

I Thus is a first mortgage on the railroad and land grants.

II. The railroad will be continuous, under one management, for two thousand mil's, and will connect the Pacine with Lake Superior and the Mississippi.

III. It will open up to American trade and enterprise the rich and noble fied River country of British America.

IV. The land grant is absolutely a surety to the bond.

IV. The land grant is absolutely a surety to the bond.

IV. The land grant is absolutely a surety to the pond. IV. The land grant is absolutely a surety to the bond

1V. The land grant is absolutely a surely to the solution of the holders.

V. This land grant is larger than that ever given to any national improvement.

VI. It embraces a region of fertility, mildness in temperature, and capable of enormous development.

VII. Tae lands in themselves will build the road and leave a large supplis.

VIII. By the Northern Pacific Raffroad the Lakes are 60 miles nearer the Facific thin by any other roate.

I.A. The Northern Facific thin by any other roate.

I.A. The Northern the distance between China and tondon over 1200 miles distance between China and the climate is milder, less snow falls, and the gradients easier.

VIII. Intersects and drains navigable Streams. X. It elevation is so much less than other lines, that the climale is milder, less snow fails, and the gradients easier.

XI. It intersects and drains navigable streams, which control a vast outying region.

XII. It will be practically an international route, controlling the trade of British America.

XIII. The laterest on these Bonds, so well secured makes them THE MOST PROFITABLE INVESTMENT NOW IN THE MARKET.

XIV. The care taken in the preparation and the endowment of the Bonds makes THE INTEREST OF THE HO. DER ABSOLUTELY SECURE.

XV. The denominations in which the Bonds are issued makes them a A POPULAN LOAN, while the fact that they represent land and may be so redeemed, gives they represent land and may be so redeemed, gives they represent and and may be so redeemed, gives they represent and and may be so redeemed, gives they represent and and may be so redeemed, gives they represent amount, and of needed denomination. The nearest bank or banker will supply these bonds in any desired amount, and of needed denomination. Persons wishing to exchange stocks or other bonds for these, ran do so with any of our agents, who will allow the highest current price for all marketable securities. Those living in localities remote from banks may send money or other bonds directly to us by express, and we will send back Northern Pacific bonds at our own risk, and without cost to the inves.or. For further inference on the property of the salt is property of the banks or bankers employed to sell the property of SALE BY JAY COOKE & CO.

FISCAL AGENTS NORTHERS PACIFIC RAILROAD CO. PANY, 118 SOUTH 3D St., Polisadelphia: corner of NASSAU and WALL STS., New York; 452 lbTH ST., Washington, D. C.; by National Banks, and by Brokers generally throughout the country.

Dibidends. PREASURER'S OFFICE,

RAILROAD COMPANY. St. Joseph. Mo., January 28, 1871.
